Parul Institute of Engineering & Technology

B.Tech — Computer Science & Engineering | 2021–2025

Parul University, Limda, Vaghodia

CERTIFICATIONS

Web Development – Internshala

Power BI

Microsoft Excel

COURSEWORK

Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Operating Systems, Computer Networks

CORE STRENGTHS

Problem Solving, Responsive Web Development, Client Communication, Team Collaboration, Fast Learning, Adaptability

PROJECTS

CarMotiveIndia — Multi-Brand Car Dealership Website

Freelance / Client Project | 07/2026 – 09/2026

- Developed a full-featured automotive dealership website using Next.js, React.js, and Tailwind CSS with dynamic vehicle listings, brand/model catalogs, and individual car detail pages.
- Implemented pricing and EMI estimates, Finance and Exchange sections, and lead-generation flows for car loans and vehicle trade-ins.
- Built a blog module and customer testimonials/reviews section to support SEO content and customer trust.
- Improved mobile responsiveness, usability, SEO, and website performance; deployed the live website using a custom domain.

Magvel Capital Services

Freelance / Client Project | 03/2026 – 04/2026

- Developed a premium corporate website for a financial services company using Next.js, TypeScript, Tailwind CSS, and Vercel.
- Built responsive UI components, enquiry forms, and an EMI calculator for customer interactions.
- Optimized SEO, performance, and mobile responsiveness and deployed the website with a custom domain.

Verkoper Property Solutions

Freelance / Client Project | 04/2026 – 06/2026

- Designed and developed a responsive real estate company website using Next.js, TypeScript, and Tailwind CSS.
- Created reusable layouts, responsive UI sections, and lead-generation forms for customer enquiries.
- Collaborated directly with the client on design revisions and implemented changes to improve usability and user experience.

Weather API

Personal Project | 07/2024

- Built a real-time weather application using HTML, CSS, JavaScript, and the OpenWeatherMap API.
- Implemented location-based search, dynamic UI updates, loading states, and API error handling.

ADDITIONAL EXPERIENCE HIGHLIGHTS

- Freelance development experience delivering websites from requirements and UI implementation through deployment.
- Experience working directly with clients, handling design feedback, revisions, responsive behavior, and production-focused improvements.
- Familiar with modern frontend development workflows, component-based architecture, API integration, version control, and deployment.

TARGET ROLES

Frontend Developer Intern • React.js Developer Intern • Next.js Developer Intern • JavaScript Developer Intern • Web Development Intern
